Thema: Daten für Werbung oder Marktforschung - wir bestätigen Ihren Wunsch

Sehr geehrte Damen und Herren,

wie Sie es sich gewünscht haben, nutzen wir die Vertragsdaten zu Ihren Rufnummern nur innerhalb der T-Mobile zur Kundenberatung, Werbung und Marktforschung, nicht jedoch in den übrigen Unternehmen des Konzerns Deutsche Telekom AG.

Kontakt bedeutet das für Sie, dass nur wir von T-Mobile Ihre Daten - wie Ihren Namen und Adresse, das Geburtsdatum, die Kontaktdaten, Wünsche und Informationen über die von Ihnen bereits genutzten Produkte - als Basis dafür nehmen, um zur Kundenberatung, Werbung oder Marktforschung von Ihnen in Verbindung zu treten.

THE LEGACY OF INBLOOM

Working Paper 02.02.2017

Monica Bulger, Patrick McCormick, Mikaela Pitcan

COMPAS Women, used in conjunction with gender neutral Core and Reentry scales, is a complete set of Gender-sensitive scales that is integrated into the suite. A full range of "gender-specific" factors (sexual abuse as a child, self-efficacy, quality of relationships, self-esteem, etc.) are embedded in the assessment and can be used to refine and guide treatment planning for women offenders.

COMPAS Youth Risk/Needs and Case Planning, designed for delinquent youth ages 12 to 17, takes advantage of recent research on the predictors and needs factors most strongly linked to juvenile delinquent behavior. It also incorporates the "strengths perspective" and contains many critical factors that may protect the high-risk youth from serious delinquency.

Northpointe's nationally recognized "Decision Tree" Objective Jail Inmate Classification System is validated, court tested and reliable. Northpointe's Decision Tree classification, taught at the National Institute of Corrections, meets all accepted principals and guidelines of objective classification methods.

Northpointe's Case Manager is a comprehensive, dynamic software solution managing all aspects of community offender processing and supervision case management. Case Manager includes critical functionality for Pre-Sentence Investigation, Specialty Court supervision and a comprehensive Workload Manager to oversee supervision agency operations.

Designed specifically for pretrial release programs, Pretrial tracks conditions of release, case processing events, supervision levels, contacts, court information, next court dates, court date attendance, drug testing, program information, case notes and outcomes tracking. The Failure to Appear Risk Scale also calculates a "Recommended Supervision Level" if placed in the community.

The Northpointe Suite offers a seamless, integrated, and easy to use Ad-hoc Report generation tool allowing for the custom creation of an unlimited number of roster reports, statistical tabulations and charts. The Northpointe Ad-hoc Reports module gives line staff, managers and administrators easy access to all of the data fields in the system.

Take a "retrospective" look at risk and needs factors over the previous 12 months for making treatment and supervision decisions at intake and in the community or a "prospective" look at risk and needs for longer term incarcerated inmates transitioning back into the community.

-

We are driven by a justice system that instills confidence through its processes and is accessible to all citizens. Like you, equivalent aims to embrace community while advancing justice and deliver better outcomes to all who touch the justice system. We do this through our deep domain knowledge, modern technologies, and expert services that help promote public and individual safety by informing decisions at every step. As fellow stewards of justice, equivalent is committed to your mission and we value your ideals. Our people operate with fairness and integrity, believing that there is no such thing as "good enough".

issues that is integrated into the score. A full range of "gender-specific" factors (sexual abuse as a child, self-efficacy, quality of relationships, self-esteem, etc.) are embedded in the assessment and can be used to refine and guide treatment planning for women offenders.

COMPAS Youth

COMPAS Youth Risk/Needs and Case Planning, designed for delinquent youth ages 12 to 17, takes advantage of recent research on the predictors and needs factors most strongly linked to juvenile delinquent behavior. It also incorporates the "strengths perspective" and contains many critical factors that may protect the high-risk youth from serious delinquency.

COMPAS Classification

Features

Chronology

A full chronology of events are stored against any concerns raised allowing you to easily see notes from meetings, interventions and behaviour reports.

Reporting

Creating reports is easy and within a few clicks you are able to see all concerns raised on a specific child. You can easily export or print the report for external agencies or meetings.

Anywhere

Our secure hosted option allows you to access the system from any device, anywhere where you have an internet connection. This also allows staff to raise concerns anywhere.

Alerts

The staff that need to know about any concerns that have been raised get alerts as they happen - Great for time-sensitive concerns.

Reviews

You can set reminders to prompt viewing of CP files, allowing you to keep track of referrals and action.

Body Maps

As well as online body maps, you can also combine body maps to review emerging patterns.

Dashboards

Multi-Academy Trusts, Local Authorities and Governors can have real time access to reports to a
